SKILLS

- Programming Languages**
Python, Java, C, C++, JavaScript, TypeScript, Kotlin
- Frameworks**
Angular, Spring, Hibernate
- Databases**
SQL, PL/SQL, NoSQL, PostgreSQL
- Platforms & Version Control**
JupyterHub, Docker, Kubernetes, GitLab, GitHub
- Web Dev**
HTML, CSS, PHP, UX/Wireframing
- Simulations**
MATLAB, Proteus, Cisco Packet Tracer
- Systems**
Windows, Linux
- Management**
Microsoft 365, Collaboration, Team Buildding
- Cloud Computing**
AWS
- Networking**
Cisco: CCNA1, CCNA2

LANGUAGES

- French**
B2

- Arabic**
Native

PROFILE

Software Engineering student, detail-oriented and solution-driven, with hands-on experience in Python development, full-stack technologies, and industrial systems. Currently an apprentice at GE Vernova, contributing to automation and data quality improvement. Eager to apply my skills in building scalable, high-impact software solutions. *Available from Dec 2025.*

PROFESSIONAL EXPERIENCE

PYTHON DEVELOPER APPRENTICE – GE Vernova

Interconnections Team, Electrical Engineering Department

2023 – Present | Belfort, France

- Designed and developed a Python-based tool to automate interconnect cabling error checks, improving data quality, First Pass Yield (FPY), engineering efficiency, and On-Time Delivery (OTD).
- Built automated dashboards and generated weekly reports to visualize error rates and data quality trends across multiple projects.
- Defined and tracked KPIs:
 - Data quality improvement rate.
 - Weekly error rates per project with supporting visualizations.
- Developed a PLM task-tracking tool for enhanced project oversight:
 - Included a Sankey graph to visualize task statuses and dependencies in the electrical map.
 - Delivered detailed Excel reports for multiple projects to track progress and identify bottlenecks.
 - Enabled real-time online monitoring directly linked to PLM, accessible externally by stakeholders.
- Analyzed user-reported issues, implemented fixes, and ensured timely delivery of corrections to maintain tool reliability.

ASSOCIATION UNIS-CITÉ (Civic Service)

2018 – 2019 | Belfort, France

Programs: Young Digital Citizens, Cinema & Citizenship

EDUCATION

MASTÈRE – EXPERT in SOFTWARE ENGINEERING

ISCOD

2023 – 2025 | France

- Advanced Dev: Angular, Spring, Kotlin, Docker, Kubernetes
- Project Management: Agile, Scrum, Design Thinking, Team Leadership
- Architecture & Testing: SOLID, UML, Security, Big Data, NoSQL, DevOps

BACHELOR'S IN COMPUTER SCIENCE

UNIVERSITY OF STRASBOURG

2019 – 2023 | France

ENGINEERING CYCLE – COMPUTER SCIENCE

UTBM

2017 – 2018 | BELFORT, FRANCE

ELECTRICAL ENGINEERING (ELECTRONICS & TELECOM)

FACULTY OF ENGINEERING AT SHOUBRA

2013 – 2016 | CAIRO, EGYPT

CERTIFICATES

- Cisco**
CCNA1 & CCNA2
- PSC1**
First Aid Certification
